# REFINED PORCELAIN

Satsuma-yaki is a type of porcelain unique to the Kagoshima region, whose history dates back four centuries. Beloved by the powerful Shimadzu lords, satsuma-yaki has been refined, protected, and passed on from generation to generation. This tour lets you dive into the history and craftwork of the porcelain as taught by artisans at Chin Jukan, an established Satsuma-yaki kiln based in Hioki City. The tour also includes a tea ceremony at Chin Jukan's exclusive tearoom, which opens only once a year on a special occasion.

# ALL ABOUT HIOKI OLIVES' PAST AND PRESENT

In the early 20th Century, the Japanese government test-planted olives seedlings in three regions throughout the country, including Kagoshima. Unfortunately, the test failed due to environmental obstacles and a lack of experience at the time. In 2013, however, newly acquired skills and knowledge led to the creation of 'HIOKI Olive,' a groundbreaking Kagoshima olive brand. Thanks to those efforts, Kagoshima is now one of the country's leading olive producers. This tour invites you to explore the history of olive-making in Kagoshima, followed by a fantastic open air olive-infused dining experience.

Introduced in Kagoshima by the Shimadzu family in the late Edo Period, Satsuma Kiriko is an upscale traditional glass craft that boasts vivid colors and intricate thick glass cuts. Although the craft thrived throughout Shimadzu's domain, political power changes led to a production halt in the late 19th Century, causing it to vanish for over 100 years. Luckily, Satsuma Kiriko's production was revived in 1985. This tour takes you to Glass Studio Deshimaru, where you can make a unique Satsuma Kiriko glass and learn about the history of this refined craftsmanship.
