Brown colored!!
Many facilities in Sakurajima
are brown colored to harmonize
with surroundings. Even the
convenience stores brand
colors are changed to brown.

Seven hearts of Yunohira Observatory

Yunohira Observatory is a romantic location of beautiful night view. Those who find seven hearts may become happy in the future!

Sakurajima small mandarin

Sakurajima small mandarin is about 3 centimeters in diameter. It is popular for the gift for its sweetness and cuteness. Processed product such as dressing or snacks are also popular.

Sakurajima radish

Sakurajima radish is the biggest radish in the world which is recorded in the Guinness Book of World Records.

Roofed

Volcanic ash fall is a part of the life on Sakurajima. You can see unique scenery that a swimming pool or a grave are covered by a roof.

Evacuation cellar and Evacuation port

Sakurajima is still active. Each village has its own evacuation port for an emergency. Those evacuation ports are usually used for fishing. Also, evacuation cellars are dotted at major roads to avoid volcanic stones.
